

**Be Happy, Be Safe!**

**Children's Coloring  
Book**

Dear Children, Parents and Child Protection Workers,

We are happy to share with you this coloring book to help to talk about issues to protect children.

Please meet this very nice family and follow their advices on how to stay safe and happy, and how to support children.

Happy talk and happy coloring!

IOM Protection Team

My mother always listens to me even when she is cooking or working.

Things I like to talk to her about

Things I don't like to talk to her about

Things I would like to talk to her but are very difficult...

My Aunty always tells me if I did something good or if I made a mistake.

I know what  
is good and  
wrong and  
why.

I am not  
scared of her  
and I trust her.

I feel  
confident and  
happy.

## Our family shelter

We have a big family.

Our shelter is not big.

We are all small and can have our own children's room!

My mother and father works a lot and takes care of me and my brothers all the time.

She never leaves me alone.

She does not allow me to carry heavy things.

She asks others to help her if she needs it.

Some children help out more in their homes.

I want to help my parents.

Some chores might hurt my body as I am small.

After my chores I go to learn and play.

Our Aunty tells us stories or plays with us.

We spend  
lot of time  
together.

We are safe  
being around  
and don't get  
into trouble.

I love books and  
want to learn  
more.

I have big dreams.

My dream is  
to learn and  
study.

Some people  
think girls  
should stay  
home.

My family helps me  
to go to reach my  
dreams.

I go to the Child Friendly Space every day with my brother.

I like playing with others.

We live far and are scared to come here alone

Our grand mother takes us to the Child Friendly Space

I like to have fun and learn with other children

I have many  
friends.

We talk about  
many things.

Meeting with others can  
help me feel better.  
Now we are in mask to  
avoid being sick.

I will have a little brother very soon.

I like to play  
with small  
babies.

I am too young  
to carry a baby.

I need to grow up  
first not to hurt  
my body.

## Knowing of dangers

Our father  
keeps an eye  
on us all the  
time.

He worries that  
something bad can  
happen to us and  
talks to us about  
dangers.

We always tell him  
where we go, with  
whom and when we  
get back.

## My best friend

I love to play  
with my best  
friend.

He can't play  
all games with  
me.

I help him to get  
around.  
We have fun  
together.

Our father shows us around in the camp

We know the camp and the places we need to go sometimes.

He told us where to go and what to do if I am lost.

We know which camp and block we live in, and the name of our father.

Some children fight with each other or treat others badly.

I want to help others who got hurt

I am scared they might hurt me too.

I will talk to someone who can help.

## Being home alone

My father is  
busy and  
sometimes  
leaves us home.

I am scared if  
anyone comes  
in the house,  
even if I know  
the person.

My father always  
tells the neighbor  
we are home  
alone to keep an  
eye on us.

We are all different.

We all need  
different  
things.

Some people  
need more  
support than the  
others to be  
saved from  
harm.

Now we need mask,  
more handwash and  
keeping distance to stop  
the virus to spread.

My parent might get sick and go to hospital

My parent  
needs to get  
healthy soon.

My parent  
might take me  
to a friend  
whilst being  
sick.

My parent  
always has a  
plan for me to  
protect me.

Some children are alone and don't have parents.

All children should live with a family.

They might feel alone and need help.

My father accepted a child in our family and we have fun together.

The Child Protection Worker talks to the Imams and other adults. My father listened to him too.

They learn  
how to  
protect  
children

They warn us  
about  
dangers

We shall not accept  
anything offered by  
strangers.

Beating children is not allowed.

My parents love  
me and talk to me  
nicely.

The teacher  
sometimes beats  
me.

I have to tell my  
father if someone  
hurts me.

## Bad touch and good touch

I love when  
my mother  
hugs me.

I don't like when  
some others are  
touching me.

I tell my mother if  
someone touches me  
and I feel bad about it.

Children don't marry under 18 years old.

I am safe with  
my parents.

I need to grow  
up before  
becoming  
parent.

I will learn and study  
first before getting  
married.

Getting married is a big step.

I want to be  
happy.

My parents  
might want  
me to marry  
earlier.

I tell my parents  
to wait until I  
grow up.

I trust some adults around me.

I feel safe as I  
can talk to some  
adults who will  
protect me.

Sometimes I  
am afraid to  
talk to my  
parents.

I like to talk  
to the adults  
in the CFS or  
TLC. They  
help me.

When I grow up...

I will be a  
teacher!

In difficult times  
my commitment  
counts.

I will learn hard and  
will have a job.

When I grow up...

I will have many  
choices.

I won't be  
scared of  
challenges.

I will be a happy bride  
and a teacher.

If you have more questions or want to talk to someone, please go to the nearest Child Friendly Spaces or Women and Girls Safe Spaces, they will be able to assist you more or call IOM Protection Team:

Ukhiya: 01877753074 , Teknaf:  
01877753089

For issues connected to human trafficking please contact IOM Protection team in the camps or IOM's Counter Trafficking Hotline: 01872741801

All assistance provided by humanitarian organizations is based on need and is free.

The book is published by IOM with the generous support of several donors: the European Union Civil Protection and Humanitarian Aid (ECHO), The UK Department of International Development (DFID), the Department of Foreign Affairs and Trade (DFAT) of the Australian Government and Bureau of Population, Refugees and Migration (PRM) of the U.S. Department of State, Korea International Cooperation Agency (KOICA) and always with the kind support and cooperation from the Government of Bangladesh. Special thanks to Shahnaz Akter and Afroza Khanam Effat for the illustrations. Edited by: Bernadett Fekete
